WHO WE ARE

United Energy Mechanical Contracting (UEMC) is a partnership company having its base in Kuwait catering to the Oil, Gas, Power, Steel, Cement, Chemical, Textile, Fertilizers Plants & Process Industries. We have a team of highly experienced Engineers capable of executing EPC sub-contracts for any of your projects and at any phase.

In collaboration with M/s Hottex Engineers Private Limited now we can execute the jobs related to Industrial Insulation, Scaffolding, Painting, Sand-blasting, Copper Slag, Refractory & Dry Out.

MORE ABOUT US

UEMC has the capability and experience to take up any job at any phase of the project providing quality and timely services within budgetary parameters to the satisfaction of its local and international clients.

We specialize in Industrial Marketing and keep track of all upcoming potential projects in Kuwait particularly on Oil & Gas, Power Generation, Telecommunication & IT Sectors.

It's well-versed in all procedures right from registration to tendering and execution of all stages of projects related to the above sectors and has an efficient team to co-ordinate between various ministries and Labour Department to clear all possible hurdles to ensure smooth completion of projects undertaken.

We create global career opportunities for employees, giving talents the chance to do their best work in an environment that embraces them. We endeavor every day to enrich the nation by engaging and empowering our people to become role models. We care for our employees by instilling them with a sense of pride and belonging. Our strategic integration journey will form one of the Kuwait's largest Contracting companies. In line with the country's forward-thinking strategy to nurture a more sustainable and diversified economy, UEMC will position itself amongst state's best by capitalizing on opportunities across the value chain, while simultaneously building an environment where talent thrives.

UEMC strongly adheres to its Motto “Leave it on us” which, in itself, is a testimony to its performance and growth. The Group is proud and honored to offer itself as a One-Stop Solution for all its clients’ business needs.

Factors that have contributed to its Success:

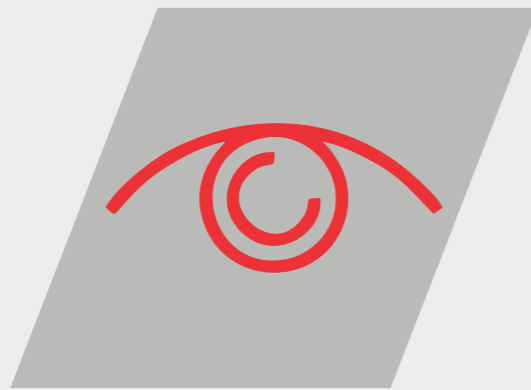

- i) Strict compliance with the terms of contracts, standards and procedures.*
- ii) Timely completion of all deliverables & effective liaison with clients.*
- iii) Organizational support, availability of resources and facilities.*

It is a matter of pride that UEMC has today become a trusted name in the Oil & Gas Industry. The group’s success is the result of its commitment and readiness to meet the challenges of the industry through the expertise and experience of its workforce and support of its clients. UEMC is a synonym for delivering its projects

*“-----
Today, we focus on facilitating local and international private participation in the oil and gas sectors to increase value for shareholders and reap greater benefits for the nation.
-----”*

HUMAN RESOURCE

Strong and dedicated team of highly experienced Engineers, Technocrats and Design Team along with super skilled welders is our big strength in meeting customer's needs.

Our workforce comprises of well experienced and educated personalities and we are rapidly expanding to meet the demands of our projects. It includes experienced engineers, technical staff and office staff. Through our in-house recruitment and consultancy services we recruit only the most qualified employees and further develop their skills through training programs and career development opportunities. Our experience in the market has made our team capable to cultivate strong relationships with our clients, subcontractors, suppliers and stakeholders. This exposure has given them the tools and experience to tackle all projects successfully.

At UEMC, we insist that all employees are personally committed and understand the importance of their own safety, take individual responsibility towards full compliance of Safety Policies and perform their jobs in accordance with approved working procedures. At UEMC, safety takes precedence over convenience, ensuring that the workplace is safe.

HEALTH & SAFETY ENVIRONMENT

The health, safety and welfare of all staff is significantly important to us, and it is our intention to strive for excellence in the effective health and safety management of all construction sites under our control. We believe that maintaining a safe, clean working environment is an essential factor in achieving high quality, cost control and accurate scheduling. We are committed to providing a safe and healthy working environment for all our employees, subcontractors and the public. The goal of our Quality, Health, Safety, and Environment policy is to actively contribute to the performance and sustain ability of UEMC, based on principles of ongoing improvement and sustainable development. At UEMC, we never stop looking for better people or better ways to do things. We are open to “thinking outside the box,” especially when it entails “sacred cows” within our organization, be they people or practices. This doesn’t mean that we axe any business function or people, but are open to modifying either or both. Our mission is to invent new ideas to reduce the unit cost of manpower NOT the manpower itself.

QUALITY

- Being the supplier of choice for innovative materials
- Increasing our responsiveness to the requests of our clients
- Improving the quality of our products and services
- Developing our employees’ skills

HEALTH & SAFETY

- Aiming for “Zero Accidents”
- Preventing occupational illnesses
- Reducing risks at work stations
- Preventing major crises

ENVIRONMENT

- Preventing environmental impacts
- Reducing waste and improving its recycling
- Optimizing use of natural resources
- Guaranteeing management of all hazardous substances
